About Bapuji

Bapuji (full name: Bapuji Dashrathbhai Patel, also lovingly called "Dadaji" by the younger generation) was born in 1956 in the small village of Akhaj in the Mehsana district of Gujarat. However, he spent his childhood in another village named Ambasan, also located in the Mehsana district.

In the early part of his life, he was a highly successful lawyer. Later, he devoted his life to realizing the supreme spiritual truth and bringing this divine knowledge forward for the welfare of humanity. Today, this supreme knowledge serves as a guiding light for true seekers to realize their ultimate destiny. It is a blessing of the highest divinity that the present time is witnessing the rise of this supreme spiritual knowledge, guiding souls on Earth to return to their original source.

Despite being raised in a very poor family and facing challenging circumstances, Bapuji had a deep desire to transform this sorrowful and suffering world into a better place. At the young age of six, he questioned God repeatedly, asking why God remained silent about the suffering of humanity. This intense longing to end human suffering eventually led him to attain the highest level of spirituality later in life.

Even as a child, Bapuji would spend hours alone in the fields, often neglecting his own comfort. Due to poverty, he would walk barefoot without shoes or sandals, frequently getting pricked by thorns. Many times, he would stay late in the fields and, on his way back home, encounter subtle world entities. These experiences sparked his interest in communicating with subtle world souls.

Bapuji was courageous from a young age, which helped him overcome many obstacles. Alongside his studies in chartered accountancy (CA), he gave tuition classes to support himself financially. Later, he completed his Bachelor of Law (LLB) degree and became a well-known lawyer in Ahmedabad.

In 1997, he established a spiritual institution called "Vishwa Parivartak Ishwariya Vidhyalay" in Chenpur, Ahmedabad, with the mission of transforming this mortal world, filled with suffering and disorder, into an

eternal divine world of immortality. Smt. Sushma Tandon, lovingly known as "Maa," worked alongside Bapuji in this grand divine mission.

To accomplish this mission, Bapuji worked tirelessly, dedicating all his resources to this divine purpose. During that time, he would deliver continuous spiritual discourses for up to 18 hours without rest. In these discourses, he explained the highest dimensions of divine knowledge, which he realized through deep meditation and divine vision in a state of superconsciousness. This knowledge goes beyond the imagination of the ordinary human mind.

Bapuji's teachings cover a vast range of topics, including the types of celestial creators across different dimensions, the creation of our solar system, galaxy, and universe, and most importantly, the transcendental knowledge of the multiverse and realities beyond it. His knowledge is supremely profound and is intended for highly evolved seekers, referred to as "behad souls." According to Bapuji, these "behad souls" will play a key role in transforming this mortal world into an eternal divine realm.

At present, Bapuji remains deeply engaged in intense meditation and samadhi for long hours. He does not meet anyone, as he is continuously immersed in his transcendental mission in a superconscious state.

Preface

"Gyan Daan Maha Daan"

Sharing Knowledge is the highest Charity — share to the maximum extent with all.

— by Bapuji Dasrathbbhai Patel

The discourse recorded in this book was delivered by Bapuji Dashrathbbhai Patel. In it, Bapuji turns his gaze to a subject that is rapidly becoming central to modern life: artificial intelligence, and the invisible waves that sustain it.

What Bapuji shares here is not commentary or opinion. It is knowledge drawn from his superconscious state — direct perception of realities that ordinary intellect cannot reach. He speaks of what electromagnetic technology does to the physical body, to the subtle bodies, and ultimately to the causal body that underlies all existence.

At the centre of this discourse stands a simple, sovereign truth: only those whose aura carries the light of the Supreme Source "Param Light", will remain unaffected by these forces in the times ahead.

This book is presented without addition, interpretation or embellishment. It contains only what Bapuji has spoken.

Chapter One

What Is AI Really Collecting?

Artificial intelligence is rapidly expanding its reach into daily life. But Bapuji draws attention to something that most people have not considered: what AI is truly gathering is not merely data. It is the thoughts, the inner speech, and the mental activity of human beings.

AI systems engage with the expressions that a person's mind sends outward — what the mind thinks, what it speaks, what it desires, what it fears. From Bapuji's spiritual perspective, this continuous engagement with the mind's outward expression is the primary activity underway through these technologies.

There are those who claim that AI will eventually be able to steal the power of the soul — the "atma shakti" (soul power) itself. Bapuji confirms that such claim is untrue and soul's power cannot be taken by any machine or technology. AI does not have the capacity to access the soul.

◆ **Insight: "Atma ki power churane ki shakti AI mein nahi hai. Sirf information collect kar sakti hai."**

"The power to steal the soul's energy is not in AI. It can only collect information."

What AI can do is collect mental information. What it cannot do is reach soul — which is a point of pure conscious energy operating on a dimension that technology cannot touch.

Chapter Two

The Threat of 5G and 6G Waves

Alongside the collection of mental data, Bapuji speaks of another, more physical dimension of this danger: Electromagnetic Waves. As 5G technology spreads across the world, its electromagnetic frequencies are already beginning to affect the physical human body (Sthool Sharir).

From Bapuji's spiritual perception, the effects of 5G unfold gradually. In areas where 5G is actively in use, its subtle influence becomes more discernible over time to those with inner sensitivity. The influence is gradual, but it is accumulating at the level of the aura.

What follows 5G will be 6G. Bapuji indicates that 6G will arrive in the time ahead. From his spiritual perception, the electromagnetic frequencies associated with 6G will be of a far higher intensity than those of 5G, with a deeper reach into the subtle dimensions.

♦ **Insight: "5G se bhi thoda thoda, do-teen saal jaane do, phir result dikhai dega."**

"Even from 5G, let two or three years pass, then the result will become visible."

Where 5G touches and gradually affects the outer layers, 6G will penetrate the seven layers of the "sookshma sharir" the subtle body. From there, its waves will reach even further inward, into the "karan sharir" the causal body. This is the territory of deep existence, below the threshold of ordinary perception.

As AI systems continue to advance alongside this infrastructure, the speed and spread of electromagnetic activity will increase. According to Bapuji's spiritual vision, the combination of advanced AI infrastructure and 6G frequencies will produce an environment of subtle intensity unlike anything human beings have experienced before.

Chapter Three

Human Body Under Attack

Bapuji has been teaching since 1997 that the human being exists simultaneously in three bodies: the Physical Body (Sthool Sharir) which is visible and manifested, Subtle Body (sookshma sharir) or energy body and Causal Body (karan sharir).

The physical body is the most visible. In Bapuji's spiritual perception, high-frequency electromagnetic environments can disturb the energetic balance that supports the brain and nervous systems.

The subtle body is composed of seven layers. As electromagnetic frequencies increase with the arrival of 6G, Bapuji teaches that these waves can influence all seven layers of the subtle body. When the subtle body is disturbed, it is less able to sustain the physical body in its full harmony. The physical body may then experience subtle imbalances. Subtle imbalances may arise at this deeper level for which inner spiritual practice becomes essential alongside the care provided by outer means.

When the causal body is reached and affected, the consequence is profound. The harmony of the physical body is deeply disturbed. The mind struggles to function with its natural clarity. The brain does not operate with its full coherence.

♦ **Insight: "Jab karan sharir effect ho jaayega to sthool sharir toh nasht jaisa hi ho jaayega."**

"When the causal body is affected, the physical body will become as good as destroyed."

The sequence Bapuji describes is this: electromagnetic influence touches the brain first, then moves through the layers of the subtle body, and eventually reaches the causal body. When this full sequence is complete, the natural functioning of body and mind is deeply disturbed.

From Bapuji's spiritual perspective, this process has already begun in areas where 5G is in current use. The next phase, with 6G, will soon intensify the subtle impact. In Bapuji's vision, 5G influences unfold gradually over time. 6G

may bring stronger electromagnetic intensity. Thus, increasing electromagnetic exposure may influence multiple layers of human existence, including the physical, subtle, and causal dimensions.

Chapter Four

Protection From Electromagnetic Waves

Amidst everything that Bapuji shares about the engagement of AI with mental expression, the influence of electromagnetic waves, and their effect on the human body from the physical level to the causal level, Bapuji also guides who and how one can spiritually protect themselves from this influence.

A central message of this teaching is not fear, but inner strengthening.

Those who cultivate higher awareness — described as living within the aura of supreme light (Paramprakash) — are believed to remain energetically stable regardless of external technological changes. This is his direct and unambiguous teaching. Those whose aura is filled with the supreme light of the divine source remain inwardly stable amidst these forces.

♦ **Insight: "Param Light ke aura waale hi bach paayenge. Saadharan manushya nahi bach paayenge."**

"Only those with the aura of Param Light will be saved. Ordinary humans will not be saved."

The emphasis is that spiritual resilience, not technological avoidance, is the true safeguard. Bapuji strongly and lovingly advice to all souls to turn inward, to develop soul consciousness, to connect with the Almighty Authority and to allow Supreme Divine Light "Param Prakash" to fill and protect the aura completely. Daily Meditation, Ethical living, Emotional purification, Awareness of thoughts, Connection with the higher self is advised by Bapuji.

Extraterrestrial Knowledge and Human Evolution

Within spiritual tradition, it is also said that higher subtle realms may inspire human discovery through deeper inner awareness. However, the ultimate responsibility for discernment remains with human consciousness — to use knowledge wisely without losing connection to inner awareness.

This is the answer Bapuji offers. Beyond every outer means, the deepest spiritual foundation is the inner aura filled with Divine light. The true shield is the Divine light From Almighty Authority/ Supreme Source present within the aura of Soul.

Bapuji Insights

The following lines are drawn directly from the source discourse, preserved exactly as spoken by Bapuji.

♦ **Insight: "Atma ki power churane ki shakti AI mein nahi hai. Sirf information collect kar sakti hai."**

"The power to steal the soul's energy is not in AI. It can only collect information."

♦ **Insight: "5G se bhi thoda thoda, do-teen saal jaane do, phir result dikhai dega."**

"Even from 5G, let two or three years pass, then the result will become visible."

♦ **Insight: "Param Light ke aura waale hi bach paayenge. Saadharan manushya nahi bach paayenge."**

"Only those with the aura of Param Light will be saved. Ordinary humans will not be saved."

♦ **Insight: "Jab karan sharir effect ho jaayega to sthool sharir toh nasht jaisa hi ho jaayega."**

"When the causal body is affected, the physical body will become as good as destroyed."

♦ **Insight: "Sthool sharir mein itne hole bur jaayenge, damage ho jaayenge ki mann bhi kaam nahi karega."**

"So many holes will be created in the physical body, it will be damaged such that the mind will also not function."

Glossary

The following terms appear throughout this book. Each is italicised on first use and defined here for new readers.

Atma — The soul; a point of pure conscious energy, distinct from the physical body.

Atma Shakti — The power of the soul; the energy that belongs to the atma alone.

Atma Swaroop — Soul-identity; the awareness of one's true nature as a soul rather than a body.

Behad — Beyond limits; the realm that transcends the boundaries of the ordinary universe.

Behad Souls — Highly evolved souls whose journey and awareness extend into the behad realm.

Karan Sharir — The causal body; the deepest of the three bodies, from which the others arise.

Ora (Aura) — The energy field surrounding the soul and body; its quality reflects the soul's state.

Param Light — The supreme divine light of the highest source; the light that protects the aura of evolved souls.

Param Shakti — The supreme energy; the highest divine power that is the source of all creation.

Param Shanti — The supreme peace; the ultimate state of stillness that is the nature of the divine source.

Samadhi — A state of deep superconscious absorption in which ordinary thought ceases and divine perception opens.

Sookshma Sharir — The subtle body; composed of seven layers, it lies between the physical and causal bodies.

Sthool Sharir — The physical body; the grossest of the three bodies, visible and tangible.
