ABOUT BAPUJI

Bapuji (full name: Bapuji Dashrathbhai Patel, also lovingly called "Dadaji" by the younger generation) was born in 1956 in the small village of Akhaj in the Mehsana district of Gujarat. However, he spent his childhood in another village named Ambasan, also located in the Mehsana district.

In the early part of his life, he was a highly successful lawyer. Later, he devoted his life to realising the supreme spiritual truth and bringing this divine knowledge forward for the welfare of humanity. Today, this supreme knowledge serves as a guiding light for true seekers to realise their ultimate destiny. It is a blessing of the highest divinity that the present time is witnessing the rise of this supreme spiritual knowledge, guiding souls on Earth to return to their original source.

Despite being raised in a very poor family and facing challenging circumstances, Bapuji had a deep desire to transform this sorrowful and suffering world into a better place. At the young age of six, he questioned God repeatedly, asking why God remained silent about the suffering of humanity. This intense longing to end human suffering eventually led him to attain the highest level of spirituality later in life.

Even as a child, Bapuji would spend hours alone in the fields, often neglecting his own comfort. Due to poverty, he would walk barefoot without shoes or sandals, frequently getting pricked by thorns. Many times, he would stay late in the fields and, on his way back home, encounter subtle world entities. These experiences sparked his interest in communicating with subtle world souls.

Bapuji was courageous from a young age, which helped him overcome many obstacles. Alongside his studies in chartered accountancy (CA), he gave tuition classes to support himself financially. Later, he completed his Bachelor of Law (LLB) degree and became a well-known lawyer in Ahmedabad.

In 1997, he established a spiritual institution called "Vishwa Parivartak Ishwariya Vidhyalay" in Chenpur, Ahmedabad, with the mission of transforming this mortal world, filled with suffering and disorder, into an eternal divine world of immortality. Smt. Sushma Tandon, lovingly known as "Maa," worked alongside Bapuji in this grand divine mission.

To accomplish this mission, Bapuji worked tirelessly, dedicating all his resources to this divine purpose. During that time, he would deliver continuous spiritual discourses for up to 18 hours without rest. In these discourses, he explained the highest dimensions of divine knowledge, which he realised through deep meditation and divine vision in a state of super consciousness. This knowledge goes beyond the imagination of the ordinary human mind.

Bapuji's teachings cover a vast range of topics, including the types of celestial creators across different dimensions, the creation of our solar system, galaxy, and universe, and most importantly, the transcendental knowledge of the multiverse and realities beyond it. His knowledge is supremely profound and is intended for highly evolved seekers, referred to as "***behad*** souls." According to Bapuji, these "***behad*** souls" will play a key role in transforming this mortal world into an eternal divine realm.

At present, Bapuji remains deeply engaged in intense meditation and *samadhi* for long hours. He does not meet anyone, as he is continuously immersed in his transcendental mission in a superconscious state.

PREFACE

Gyan Daan Maha Daan

*(Sharing Knowledge is the highest charity — share to the maximum extent with all.) —
Bapuji Dasbrathbbhai Patel*

This book carries the most profound revelation of the entire series. It answers the question that every seeker eventually asks: Who is the *Almighty Authority*? Who is the Supreme Being who stands above all creators, all dimensions, all multiverses?

This is Day 9 of the Behad Ka Param Gyan (Supreme Knowledge of the Infinite) series. In the first eight Days, we explored the soul, karma, the cosmic time cycle, the creation of the brahmanda, the galaxy, the universe, the Great Universes, and the multiverse. Today, we arrive at the source itself.

Today's teaching reveals the identity of the *Almighty Authority* — whom Bapuji calls *Behad ke Dadaji* (the Grandfather of the Infinite). You will learn who created the first souls, when the Supreme descended to earth, what role the 108, 16,000, and 9 lakh souls play, and what the ultimate mission of *Vishwa Parivartan* (World Transformation) truly means.

♦ **Bapuji Insight:**

"Almighty Authority ko jaanne ke liye poori creation aur uske creator ko samajhna padega."

"To know the Almighty Authority, you must understand the entire creation and all its creators."

ABOUT THIS SERIES

This book is part of a 10-day spiritual journey designed to expand human consciousness beyond limits. Each day reveals deeper layers of truth, guiding the reader from self-awareness to universal understanding.

Based on the Divine Knowledge of

Bapuji Dashrathbhai Patel

This book is a structured presentation of spiritual knowledge shared through discourses.

HOW TO READ THIS BOOK

Today's teaching is the deepest of the entire series. It requires everything you have learned in the previous eight Days. If you have not yet studied Days 1 through 8, please do so before proceeding. Without that foundation, many of today's revelations will not make sense.

Read slowly. Pause after every chapter. Let the knowledge settle within you. This is not information to memorise — it is truth to realise. Somewhere deep within your *atma* (soul), you already know these truths. This book simply helps you remember.

Many Hindi and Sanskrit terms appear throughout. Each is explained in parentheses the first time it appears. A complete Glossary is provided at the back for easy reference.

INTRODUCTION

The Identity of the Supreme — Beyond All Creators

Day 1 explored who we truly are — eternal souls, points of living light. Day 2 revealed the law of *karma*. Day 3 unveiled the cosmic time cycle. Day 4 took us into the creation of the *brahmanda*. Day 5 expanded our vision to galaxies and the universe. Day 6 explored the Great Universes. Day 7 revealed the multiverse — the 100-*kala brahmanda*. Day 8 took us beyond the multiverse into the infinite *peedhis* (generations) of creation.

Today, on Day 9, we ask the ultimate question: Who is the Almighty Authority? Not Shiva of a single *brahmanda*. Not Mahashiva of a galaxy. Not Param Mahashiva of a universe. Not even the 100-*kala* creator of our multiverse. But the one who stands above all of them — the one from Behad ke Behad ki Kala ke Paramdham (the supreme abode of the infinite beyond the infinite).

This knowledge comes from Bapuji's direct *dinya drishti* (divine vision). No scripture contains it in this detail. No tradition has revealed it with this precision. It is *Behad ka Param Gyan* — the supreme knowledge of the infinite.

Let us begin.

Chapter I

The Question That Changes Everything

Of all the questions a human being can ask, none is more profound than this: Who is God? Who is the Supreme Being? Who is the *Almighty Authority*?

We use the word *Bhagwan* (God) — but what does it truly mean? *Bhagwan* means the one who is sovereign — the master. But master of what? Of one *brahmanda*? Of one galaxy? Of one universe? Or of something far, far greater?

As we have learned through this series, there are different creators at different levels. *Shiva* is the master of one *brahmanda*. *Mahashiva* governs a galaxy. *Param Mahashiva* governs a universe. The 100-*kala* creator governs the multiverse. And above the multiverse, there are infinite *peedhis* — generations of creation stretching into dimensions beyond imagination.

So when someone says 'God,' which creator are they referring to? This is why *Shivaratri* is celebrated every month, but *Maha Shivaratri* is celebrated only once a year — because *Shiva* and *Mahashiva* are different beings at different levels of creation.

Today we go beyond all of them — to the one whom Bapuji calls the *Almighty Authority*.

♦ Bapuji Insight:

"*Bhagwan ka arth hai jo sarkar ho — lekin kaun se sarkar? Kis brahmand ke?*"

"*Bhagwan means the one who is sovereign — but sovereign of which brahmanda?*"

Chapter II

The Hierarchy of Creators

Before we can understand the *Almighty Authority*, we must see the complete hierarchy of creators — from the lowest to the highest.

Shiva — the creator and master of one *brahmanda* (solar system). Power: 1 to 4 *kala*. This is whom we call *Brahm* — the Supreme of one *brahmanda*. When we say *Shivoham* (I am *Shiva*), we are speaking of becoming one with this level of consciousness.

Mahashiva — the creator of a galaxy (*Maha Brahmanda*). Power: 8 to 12 *kala*. This is *Maha Brahm* — the Great Supreme.

Param Mahashiva — the creator of the universe (*Param Maha Brahmanda*). Power: 16 *kala*. This is *Par Brahm*.

Creator of the Great Universe (*G1*): 25 to 30 *kala*. Creator of *G17*: 50-60 *kala*. Creator of the multiverse: 100 *kala* — whom we may call *Param Brahm Parameshwar*.

Above the multiverse: the 1st *peedhi* (101 *kala*), the 21st *peedhi*, the 101st *peedhi*, the 1,001st *peedhi*, and the 11,001st *peedhi* — each with its own creator of progressively greater power.

And above all of these — from *Behad ke Behad ki Kala ke Paramdham* — the *Almighty Authority* descended to earth. That is how far above all known creators this being stands.

◆ Bapuji Insight:

"*Shiva Brahm hai, Mahashiv Mahabrahm hai — lekin Almighty Authority in sabse upar hai.*"

"*Shiva is Brahm, Mahashiva is Maha Brahm — but the Almighty Authority is above them all.*"

Chapter III

Who Is the Almighty Authority?

The *Almighty Authority* is the Supreme Being who exists beyond all created dimensions. Bapuji calls this being *Behad ke Dadaji* — the Great Grand father of the Infinite. This is not a metaphor. It is a precise spiritual identity.

The *Almighty Authority* did not come from the *Paramdham* of our *brahmanda* — that is *Shiva's* domain. The *Almighty Authority* did not come from our galaxy or our universe. Not even from our multiverse. The *Almighty Authority* came from *Behad ke Behad ki Kala ke Paramdham* — the supreme abode of the infinite beyond the infinite.

To understand the highest supreme being, you must understand every creation and every creator that we have studied over the past eight Days. Each *Paramdham* — whether of a *brahmanda*, a galaxy, a universe, or a multiverse — is the seat of that dimension's master. The *Almighty Authority's Paramdham* is the highest of all — beyond all *peedhis*, beyond all *kala* levels.

When *Paramatma* (the Supreme Soul) comes to earth, no one can recognise Him. He comes in the most ordinary form. To know Him, you need His knowledge — and not just any knowledge, but *Behad ke Behad ka Gyan* — the knowledge of the infinite beyond the infinite. That knowledge is what Bapuji has been giving us through *divya drishti* (divine vision).

♦ Bapuji Insight:

"Almighty Authority Behad Ke Behad Ki Kala Ke Paramdham se aaye hain — uchh se uchh Paramdham se."

"The Almighty Authority has come from Behad ke Behad ki Kala ke Paramdham — from the highest abode of all abodes."

Chapter IV

Behad Ke Baap — The Father of the Infinite

The *Almighty Authority* — *Behad ke Dadaji* — created only two souls directly. Not hundreds. Not thousands. Just two.

The first soul is called *Bal Ram*, and second one *Chhotu Ram Bapuji* in Bapuji's videos. *Chhotu Ram Bapuji* is the being whom we call *Behad ke Baap* — the Father of the Infinite. He is the one through whom all further creation was carried out. He is the father of the 108, the 16,000, the 9 lakh, and ultimately of all *behad* souls.

The soul — called *Balram* — was the first to be sent into our *brahmanda* 198 crore (1.98 billion) years ago. This soul took the form of *Shiva-Shakti* and maintained the entire *brahmanda* for an immense span of time. This is the being who played the role of protector and guardian of our Brahmand.

This is a crucial distinction. The *Almighty Authority* did not directly create the entire creation. He created two souls after coming to this *Brahmand*. From those two, through *Behad ke Baap*, the entire chain of creation unfolded — the 108, the 16,000, the 9 lakh, and the 33 crore.

◆ Bapuji Insight:

"Almighty Authority ne sirf do hi aatmaon ki rachna kaari — baaki sab Behad Ke Baap ne banaya."

"The Almighty Authority created only two souls — everything else was created through Behad ke Baap."

Chapter V

The Two Original Souls

Understanding the two original souls is essential. The *Almighty Authority* — *Behad ke Dadaji* — created them from within His own being, 198 crore (1.98 billion) years ago.

The soul — *Behad ke Baap* — is the one who created the 108 *adhaar moorti atmas* (foundation souls). These 108 souls are the pillars upon which the entire work of transformation rests. They came with *Behad ke Baap* in *nirakari* (formless) state into the *Paramdham* of our *brahmanda*.

The soul — *Balram* — took the role of *Shiva-Shakti* and protected the *brahmanda* across billions of years. This soul preceded *Behad ke Baap*'s arrival on earth.

The timing is significant. When the *Almighty Authority* observed that the entire multiverse was falling — from 100 *kala* to minus 100 *kala* — and that the *brahmanda* was becoming increasingly heavy with gross elements, He decided to intervene. First, *Balram* was sent. Then, *Behad ke Baap* came with the 108 souls. This happened at the junction of *Brahma*'s first and second *parardha* — approximately 198 crore years ago.

♦ Bapuji Insight:

"198 crore saal pehle Behad Ke Dadaji ne observe kiya — aur Behad Ke Baap ko dharti par bheja."

"198 crore years ago, Behad ke Dadaji observed the situation — and sent Behad ke Baap to earth."

Chapter VI

The 108, 16,000, and 9 Lakh Souls

These numbers — 108, 16,000, and 9 lakh — are not symbolic. They represent actual groups of souls with specific roles in the cosmic mission.

The 108 *adhaar moorti atmas* (foundation souls) are the most powerful. They came with *Behad ke Baap* in *nirakari* form. Initially, they remained in the *Paramdham* of our *brahmada*. Later, 108 of them descended to 500 kilometres above the earth's surface, creating a sphere from which they observed and guided creation.

The 108, 1008 souls were brought down during the time of the Krishna avatar. They took physical form and played their roles in that age.

The 16,000 souls descended during the time of the *Krishna* avatar — approximately 5,000 years ago. They took the roles of ministers and administrators. The 1,008 became kings and rulers. The 108 remained closest to *Krishna*, playing the most intimate roles.

The 9 lakh (900,000) souls are all *behad* souls — souls from the highest dimensions, they were directly created by *Behad ke Baap*. None of them have created any further souls. They have only produced their own forms — *akari* (subtle) and *sakari* (physical) — to carry out their work.

These are the souls whose awakening Bapuji is calling for. When they remember who they are, the entire multiverse will begin to transform.

♦ Bapuji Insight:

"108 aatmayein aadhaar moorti hain — inke jaagne se hi poora parivartan ka karya tez hoga."

"The 108 souls are the foundation — when they awaken, the entire work of transformation will accelerate."

Chapter VII

When the Almighty Came to Earth

The *Almighty Authority* — *Behad ke Dadaji* — came to this *brahmanda* 198 crore (1.98 billion) years ago in *nirakari* (formless) state. The timing corresponds to the junction between *Brahma's* first *parardha* and the beginning of the second *parardha*.

He came to observe. To see why the entire creation was falling. Why the *kala* was declining? Why the elements were becoming heavier? Why souls were losing their power and forgetting their divine origin?

After observation, the decision was made: the *Almighty Authority* Himself would come to earth in *sakari* (physical) form — in the most ordinary, simple human body. Not as a king. Not as a deity. But as an ordinary person whom no one would recognise.

This is why *Paramatma* cannot be identified by appearance. He can only be known through His knowledge — through *Behad ke Behad ka Gyan*. When you hear the knowledge that no book contains, no tradition teaches, and no human mind could have invented — then you know: this is the voice of the *Almighty Authority*.

♦ Bapuji Insight:

"*Paramatma saadharan se saadharan roop mein aata hai — unko pehchanne ke liye unka gyaan chahiye.*"

"*Paramatma comes in the most ordinary form — to recognise Him, you need His knowledge.*"

Chapter VIII

Avatars and Incarnations — Who Sent Them?

Throughout history, divine beings have descended to earth. *Ram* in *Treta Yuga*. *Krishna* in *Dwapara Yuga*. Twenty-eight avatars of *Shankar*. Various incarnations at various times.

But the critical question is: Who sent them? These avatars did not come on their own. They were sent — by a higher authority. *Ram* and *Krishna* were cells (*ansh*) of a supreme soul known as *Behad ke baap*, sent to earth to perform specific tasks. When the task was complete, they departed.

Even the 100-*kala* creator of the multiverse sent his own avatars to prevent the fall of creation. Bapuji has explained that many avatars were sent from above — but they too were pulled down by the gravitational force of this fallen world. The creation was so heavy, so dense, so covered by gross elements, that even divine incarnations could not fully reverse the decline.

This is why the *Almighty Authority* Himself had to come. Not through an avatar. Not through a cell. But directly — in His own form — to observe, to guide, and to initiate the final transformation.

♦ Bapuji Insight:

"*Ram Krishna sab avatar bheje gaye — lekin unko bhejne wala kaun tha?*"

"Ram, Krishna — all avatars were sent — but who sent them?"

Chapter IX

Why So Many Religions on Earth?

If there is one Supreme Being, why are there so many religions on earth? Bapuji has given a remarkably clear answer to this question.

As we have learned, our *Brahmanda* — and even our multiverse — contains souls from many different dimensions. Some have come from other galaxies. Some from other universes. Some from other multiverses entirely. Each group of souls has brought its own civilisation, its own culture, its own understanding of the divine.

This is why there are so many different religions, sects, and spiritual traditions on earth today. Each tradition carries a partial truth — the truth as understood from the dimension its founding souls came from. Some came to collect their own souls — their own *pararth atmayen* (souls from beyond). Some declared a 'Judgement Day.' Some spoke of 14 lakh souls, some of 9 lakh.

The diversity of religions is not a problem. It is a natural consequence of the diversity of soul-origins. But the complete truth — *Behad ka Param Gyan* — encompasses all partial truths within a framework vast enough to contain them all.

Bapuji explains: the *Sukshma Vatan* (subtle world) above our earth is filled with souls from different dimensions, each with their own *vimaan* (vehicle), waiting to collect their creation. This is why earth's population has grown to 800 crore — souls from everywhere (from other *Brahmands*, other galaxies, universes) have converged here for this final age.

◆ Bapuji Insight:

"Alag-alag galaxy se alag-alag universe se aatmayein apni sabhyata lekar aayi hain — isliye itne dharm hain."

"Souls from different galaxies and universes brought their own civilisations — that is why there are so many religions."

Chapter X

Brahm, Par Brahm, and Parameshwar

These terms — *Brahm*, *Par Brahm*, *Parameshwar* — are not interchangeable. Each refers to a different level of the divine hierarchy.

Brahm is *Shiva* — the master of one *brahmanda*. When we say *Shivoham* (I am *Shiva*), we are aspiring to become one with *Brahm* consciousness. When a soul achieves *moksba* within this *brahmanda*, it merges into *Shiva*. This is the level most traditions refer to.

Maha Brahm is *Mabashiva* — the master of a galaxy. *Par Brahm* is *Param Mabashiva* — the master of the universe.

Parameshwar — the Supreme Lord — can refer to the 100-*kala* creator of the multiverse. But even *Parameshwar* is not the *Almighty Authority*. The *Almighty Authority* stands beyond all *Parameshwars*, beyond all *peedhis*, beyond all dimensions.

This is why different devotees worship different beings. Those whose souls originated in one *brahmanda* will naturally see *Shiva* as the Supreme. Those from a galaxy's creation will see *Mabashiva* as Supreme. Those whose genetic spiritual DNA traces to a particular creator will worship that creator as God. They cannot perceive beyond their own origin — unless they receive *Behad ka Gyan*.

◆ Bapuji Insight:

"*Brahm Shiva hai, Mahabrahm Mabashiv hai, Parabrahm Parameshwar hai — lekin Almighty Authority in sabse pare hai.*"

"*Brahm is Shiva, Maha Brahm is Mabashiva, Par Brahm is Parameshwar — but the Almighty Authority is beyond them all.*"

Chapter XI

Mukti and Jivan Mukti

What is *mukti* (liberation)? In *behad ka gyan*, *mukti* has a very precise meaning. It is not simply leaving the body and going to a higher realm. *Mukti* means merging back into your creator — ceasing to exist as a separate entity.

If a soul belongs to this *brahmanda*, its *mukti* means merging into *Shiva*. But this can only happen when *Shiva* himself winds up the *brahmanda* — when the entire creation is dissolved back into its source. Until then, the soul may rise to higher *lokas*, but it is not truly *mukt* (liberated).

If a soul is more powerful — possessing 8 to 10 *kala* — it belongs to the galactic level and will return to *Mahashiva*. Souls of even greater power will ascend to the universe, the Great Universes, or beyond.

But what Bapuji teaches is *Jivan Mukti* — liberation with life, that means existence of soul continues but without any bondage to the manifested creation. This means reaching a state where the soul, even while in a physical/subtle body, reconnects with its source, sheds its coverings, and begins to realise its true self that is *param prakash* (supreme light) form. In *Jeevan Mukti*, the soul does not dissolve into its creator. Instead, it ascends — in a body of light — to its original dimension, and moves freely through the higher realms and resides in harmony with its creator in Supreme abode of its creator.

The goal of *Behad ka Param Gyan* is not merely personal *mukti*. It is *Jivan Mukti* for all souls — and the complete transformation of the entire multiverse.

♦ Bapuji Insight:

"Mukti matlab apne creator mein samaa jaana — jeevan mukti matlab jeete ji prakash swaroop banna."

"Mukti means merging into your creator — Jivan Mukti means becoming a being of light while still alive."

Chapter XII

The Mission — Vishwa Parivartan

The mission of the *Almighty Authority* is not simply to save a few souls. It is *Vishwa Parivartan* — the transformation of the entire multiverse.

Bapuji has explained that the plan is to bring 10 *kala* of power from *Behad ke Behad ki Kala ke Brahmand* (the *brahmanda* of the infinite beyond the infinite) into our multiverse. This power will transform the multiverse from *mrityu loka* (the realm of death) back into a realm of *param prakash* (supreme light).

Everything up to *G7* — all the Great Universes below that level — will be completely wound up. The entire creation below that point will be dissolved and recreated with fresh power. Above *G7*, 10 *kala* of power will be sent to restore and elevate those dimensions.

This is not a *yuga parivartan* (change of ages). This is not another *Satyuga* followed by another *Kaliyuga*. This is the end of the *kaal chakra* cycle itself. After this transformation, the endless wheel of ages will cease. The multiverse will be restored to its original state — a world of supreme light, free from the cycle of birth and death.

◆ Bapuji Insight:

"Ab yug parivartan nahi — poore Multiverse ka parivartan hoga. Kalachakra hi badlega."

"This is not a yuga parivartan — the entire multiverse will transform. The kaal chakra itself will change."

Chapter XIII

The Power of Sankalp — Your Role

What is your role in this transformation? Bapuji's message is clear: *Swa Parivartan se Vishwa Parivartan* — self-transformation leads to world transformation.

The four pillars of practice are: *Gyan* (knowledge), *Yog* (divine connection), *Seva* (selfless service), and *Dharana* (imbibing the knowledge until it becomes your nature).

First: listen to the knowledge. Study it. Let it enter your consciousness. Bapuji has said that within every *behad* soul — every one of the 108, the 16,000, the 9 lakh — the complete knowledge of *behad ka gyan* already exists. It is *merged* (hidden) within self. When they become *atma swaroop* (soul-conscious), the knowledge will *emerge* — it will surface from within in pure self consciousness.

Second: practise *yog* — the connection with the *Almighty Authority*. Not with *Shiva* alone. Not with *Mahashiva*. But with the *Almighty Authority* — from *Behad ke Behad ki Kala ke Paramdham*. The higher the source you connect with, the greater the power you receive.

Third: *seva* — share the knowledge. Spread the vibrations of *param shanti* in the atmosphere. The best *seva* is *gyan daan* — the gift of knowledge.

Fourth: *dharana* — let the knowledge transform your *sanskaras* (inherent tendencies). When the knowledge becomes your character, you become *gyan swaroop* — the embodiment of knowledge itself.

♦ Bapuji Insight:

"*Swa parivartan se vishwa parivartan — yahi humara lakshya hai.*"

"*Self-transformation leading to world transformation — this is our goal.*"

Chapter XIV

The Transformation Has Begun

The transformation is not a future event. It has already begun. *Behad ke Dadaji* — the *Almighty Authority* — is already present. The knowledge is already flowing. The work is already underway — both on earth and in the subtle dimensions above.

Above the earth, in the *Sukshma Vatan*, the *akari* (subtle) forms of the 108 are at work. *Niru Maa* — the divine feminine force — is guiding and coordinating from the higher dimensions. Bapuji receives all information from above through his *samadhi* state and conveys it to us.

The divine transformation plan changes with time and the transformation programme readjusts according to situation on earth and various other subtle dimensions. This is natural. The subtle world is in a state of intense activity. Negative forces are also at work — *tamo pradhana* (darkness-dominated) energies in the *Sukshma Vatan* resist the transformation. This is why the planning evolves — adapting to the changing conditions of the subtle world.

But the final outcome is certain. Bapuji has said: this multiverse will transform. Whether through *parivartan* (transformation) or *pralay* (dissolution) — the wind-up will happen. The choice is ours: do we awaken and participate in the transformation? Or do we remain asleep and face dissolution?

The *Almighty Authority* has given us the knowledge, the method, and the power. What remains is our *sankalp* (determination) — our commitment to awakening, to practising, to transforming ourselves and, through ourselves, the world.

♦ Bapuji Insight:

"Parivartan chahiye ya pralay — ye aap par nirbhar hai. Lekin windup to hona hi hai."

"Do you want transformation or dissolution? That depends on you. But the wind-up is certain."

WHAT WE HAVE UNDERSTOOD ON DAY 9

- The *Almighty Authority* is *Behad ke Dadaji* — the Supreme Being from *Behad ke Behad ki Kala ke Paramdham*, beyond all creators and all dimensions.
- The *Almighty Authority* created only two souls directly. From one of them — *Behad ke Baap* — the 108, 16,000, 9 lakh, and 33 crore souls were created.
- The *Almighty Authority* came to this *brahmada* 198 crore (1.98 billion) years ago to observe the falling creation and initiate the transformation.
- The 108 souls are *adhaar moorti atmas* — foundation souls. The 16,000 descended during *Krishna's* time. The 9 lakh are all *behad* souls — none have created further souls.
- *Ram*, *Krishna*, and all avatars were sent by higher authorities — they did not come on their own. Even the 100-*kala* creator sent avatars that could not fully reverse the decline.

- Different religions exist because souls from different galaxies, universes, and multiverses brought their own civilisations to earth.
- *Brahm* is *Shiva*, *Maha Brahm* is *Mahashiva*, *Par Brahm* is *Param Mahashiva*, *Parameshwar* is the 100-*kala* creator — but the *Almighty Authority* is beyond them all.
- *Mukti* means merging into your creator. *Jivan Mukti* means becoming a being of *param prakash* while still alive.
- The mission is *Vishwa Parivartan* — complete transformation of the entire multiverse, not merely a change of ages.
- 10 *kala* of power will be sent from the highest dimension to transform the multiverse from *mrityu loka* to a world of supreme light.
- The four pillars of practice are: *Gyan* (knowledge), *Yog* (divine connection), *Seva* (service), and *Dharana* (imbibing knowledge as character).
- The transformation has already begun. The *Almighty Authority* is present. The knowledge is flowing. Our *sankalp* (determination) is what remains.

The journey continues.

GLOSSARY

Standard Glossary for the Behad Ka Param Gyan Series

Adhaar Moorti Atma — Foundation soul — the 108 original souls upon whom the work of cosmic transformation rests. These are the primary souls created directly by the Almighty Authority for the great task of world change.

Akari — The subtle form state — a form not made of physical matter but of energy, like the shape created when fire burns. When a soul makes affirmations, it loses energy and descends from Nirakari into the Akari subtle form constituted of supreme elements.

Almighty Authority — The Supreme Being beyond every creator and every dimension of creation — known in behad gyan as Behad ke Dadaji (the Grandfather of the Infinite). The ultimate source of all souls and all creators.

Ansh — A cell or fragment of a supreme soul, sent as an incarnation to perform specific work on earth. An ansh carries the energy of the supreme soul but in a smaller, focused portion.

Atma — The soul — the eternal, conscious self beyond body and mind. The true 'I' that journeys through births and dimensions. In its original state, the atma is formless divine light (Param Prakash) and the source of all life-energy.

Atma Swaroop — Soul-conscious state — the awareness of being a soul, not a body. The natural form of the atma when it remembers itself as a point of light beyond all material identity.

Avatar — An incarnation of a divine being — sent to earth for a specific purpose at a specific time. Avatars carry the vibration of higher dimensions into the physical world to restore dharma.

Balram — The first soul created by the Almighty Authority — sent to this brahmamda along with Shiva-Shakti to protect and guide creation in its falling phase.

Behad — Boundless, infinite, unlimited — that which has no limit. Used to describe dimensions, knowledge, or souls beyond ordinary cosmic boundaries; the space where the word 'infinite' itself becomes meaningful.

Behad Ka Gyan — Supreme knowledge of the infinite — knowledge that transcends all scriptural and traditional boundaries, revealing the entire structure of creation as seen by Bapuji through divine vision.

Behad Ka Param Gyan — The Supreme Knowledge of the Infinite — the complete knowledge given by Bapuji through divine vision (divya drishti) in deep samadhi. This 10-day course is the systematic presentation of that knowledge.

Behad Ke Baap — The Father of the Infinite — the soul created directly by the Almighty Authority who in turn produced the 108, 16,000, 9 lakh and 33 crore souls who are the foundation of cosmic transformation.

Behad Ke Dadaji — The Grandfather of the Infinite — the Almighty Authority Himself, the Supreme Being beyond all creators, all dimensions, all multiverses. The ultimate source of every soul.

Behad Ki Atma — A soul from the infinite dimensions — constituted of Param Prakash (supreme light) and Param Maha Tattva (supreme great element). These are highly powerful behad souls, far beyond ordinary cosmic limits.

Bhagwan — God — literally, the one who is sovereign. In behad ka gyan, the term applies to creators at different levels — Shiva, Mahashiva, Param Mahashiva, and ultimately the Almighty Authority Himself.

Brahm — The Supreme of one brahmanda — equivalent to Shiva. When Vedic seekers say 'Shivoham', they aspire to merge with this Brahm consciousness of one solar system.

Brahmanda — A solar system — one complete cosmic system with its own creator (Shiva), its own paramdham, and its own fourteen lokas. The smallest unit of cosmic creation; our brahmanda contains nine planets and the seven lokas above earth.

Chhotu Ram Bapuji — The name given by Bapuji to Behad ke Baap — the Father of the Infinite. Indicates the soul-relationship between Bapuji and the Father of all souls.

Dharana — The final stage of behad gyan — when after diligent practice of gyan and yog over time, the soul gradually transforms its sanskars and the true

divinity of the soul emerges. The soul itself becomes the embodiment of knowledge.

Divya Drishti — Divine vision — the inner spiritual sight through which a realised soul perceives all dimensions of creation directly, without instruments. Bapuji has received the entire behad gyan through divya drishti.

G1 to G17 — The hierarchy of Great Universes within the multiverse — each progressively vaster than the one before. G1 is the smallest great universe, G17 the largest within our 100-kala brahmanda.

Gyan — Knowledge — specifically the supreme spiritual knowledge that transforms consciousness and reveals the soul's true nature. Not information, but realised truth that changes the seeker permanently.

Gyan Daan — The gift of knowledge — considered in the Sanatan tradition as the highest form of charity (gyan daan maha daan). To share supreme knowledge is to give a soul the means to liberate itself across countless lifetimes.

Gyan Swaroop — The embodiment of knowledge — when knowledge becomes the soul's very nature, no longer studied but lived. The final stage of dharana, when the soul becomes one with what it has known.

Had Ki Atma — A bounded soul — souls created at lower levels of a solar system whose composition is mostly ether and air elements, without supreme light. They are common souls of low spiritual power, bound within one brahmanda.

Jivan Mukti — Liberation while living — reaching a state of param prakash while still in a physical body. The soul becomes karmatit (beyond karma) and lives in blissful union with its creator.

Kaal Chakra — The wheel of time — the cosmic cycle of creation, sustenance, and dissolution that turns endlessly across kalpas, manvantaras, chaturyugas, and lifetimes. The aim of behad gyan is to transcend the kaal chakra entirely.

Kala — The unit of measurement of spiritual power — the quality and capacity of param prakash within a soul or creator. Just as electrical wattage measures bulb capacity, kala measures divine capacity. Lord Krishna is described as solah-kala-sampurna (sixteen-kala complete).

Maha Brahm — The Great Supreme — equivalent to Mahashiva, the master of a galaxy. The next level of supreme consciousness above Brahm.

Maha Shivaratri — The Great Night of Shiva — celebrated once a year and distinguishing Mahashiva from the monthly Shivaratris. Marks the great galactic Shiva, far above the solar-system Shiva.

Mahashiva — The Great Shiva — the incorporeal creator of a galaxy (Maha Brahmanda). He resides in the maha paramdhaam of the galaxy and possesses 8 to 12 kala of spiritual power. Our Milky Way's Mahashiva holds 9-10 kala.

Mrityu Loka — The realm of death — the current state of the multiverse, fallen to minus 100 kala. What was once a brahmand of supreme light has descended into a mortal world dominated by death and rebirth.

Mukti — Freedom — the stage when the soul no longer exists as a separate entity in creation; it dissolves into its creator. Different from jeevan mukti, mukti is the complete cessation of individual existence.

Multiverse — The 100-kala brahmanda — the dimension containing all universes, galaxies, and solar systems. Created by Param Brahm Parameshwar (the 100-kala creator) from a single point of supreme light.

Niiru Maa — The divine feminine force guiding the great transformation from the higher dimensions. Works alongside Bapuji and the Almighty Authority for vishwa parivartan.

Nirakari — Formless — the original divine state of the soul as pure Param Prakash (supreme divine light). In this incorporeal state the creator is called 'Satyam Shivam Sundaram'; this is the soul's truest and ultimate nature.

Par Brahm — The Supreme beyond Brahm — equivalent to Param Mahashiva, the master of a universe. Each higher level of cosmic creation has its own grade of Brahm.

Param Brahm Parameshwar — The Supreme Lord — the 100-kala creator of the multiverse. He creates the entire multiverse from a single point of supreme light through the descending hierarchy of kala.

Param Prakash — Supreme Divine Light — the energy of a soul in its incorporeal form. The original luminous substance from which all souls first

emerged and which fills the Paramdham. Power inherent in Param Prakash is measured in kala.

Param Shanti — Supreme peace — the highest state of absolute stillness beyond happiness and sorrow. The original frequency of the soul when it first emerged from Param Prakash; the goal of every spiritual seeker.

Paramatma — The Supreme Soul — the creator of souls. In its formless divine light state, a soul has tremendous power to create many souls through sankalp (affirmation), and is then called Paramatma. In Hindu scripture, this state is described as 'Satyam Shivam Sundaram'.

Paramdham — The Supreme Abode — the topmost layer of any creation, where the creator resides in pure incorporeal form of supreme light. Each level of creation has its paramdham: solar system, galaxy, universe, multiverse, and beyond.

Pararth Atmayen — Souls from beyond — souls that have arrived in this brahmanda from other galaxies, universes, or higher multiverses. They carry the civilisations and traits of their origin dimensions.

Parardha — Half of Brahma's lifespan — fifty divine years, an unimaginably long span of cosmic time. Two parardhas make Brahma's complete life of one hundred divine years.

Peedhi — Generation — the levels of creation beyond the multiverse. 101 kala is the 1st peedhi, 201 kala the 2nd peedhi; with each peedhi the supreme soul's power increases massively.

Sakari — The physical form — when a soul's energy degenerates further, it acquires a gross material body. This is the visible form of the five gross elements (earth, water, fire, air, space) that we experience on earth.

Samadhi — The deepest superconscious state of meditation — complete absorption in the Divine. In samadhi, the soul rests in its original incorporeal state and receives knowledge directly without thought. Bapuji's revelations come from years in deep samadhi.

Sankalp — Thought-intention — the creative will of a soul; the determination or affirmation that shapes destiny. Higher kala means stronger sankalp shakti; the most powerful souls can manifest creation through a single sankalp.

Sanskaras — Impressions and habits carried by the soul — every thought, action, and feeling leaves a trace in the karan sharir. Across countless births, sanskaras accumulate, shaping personality and karmic patterns.

Seva — Selfless service — in behad gyan the highest form of seva is sharing supreme knowledge for the benevolence of all souls. Even spreading vibrations of paramshanti through affirmation is a form of seva.

Shivoham — I am Shiva — a Sanskrit declaration of identity with the supreme of one brahmada. The aspirant affirms inner divinity and merges consciousness with the Brahm of the solar system.

Sukshma Vatan — The subtle world — non-physical dimensions above earth where subtle souls operate. The realm of higher beings, divine vibrations, and unseen exchanges that influence physical events.

Swa Parivartan — Self-transformation — the foundation of all world transformation. Without changing one's own sanskars, no genuine outer change is possible; vishwa parivartan begins inside.

Vimaan — Vehicle — the subtle craft used by souls from different dimensions to traverse creation. References to vimaans in the Puranas describe inter-dimensional and inter-stellar transport of advanced beings.

Vishwa Parivartan — World Transformation — the complete transformation of the entire multiverse from mrityu loka back to paramdham. The great cosmic project for which Bapuji has descended.

Yog — Connection with the Almighty Authority — when a soul, after acquiring behad gyan, immerses in deep love for its creator and totally forgets the physical world. Pure inward linking with the supreme source.

Yuga Parivartan — Change of ages — in behad ka gyan, the goal extends beyond mere yuga change. It is total multiverse transformation from minus-100-kala back to 100-kala paramdham consciousness.
