About Bapuji

Bapuji (full name: Bapuji Dashrathbhai Patel, also lovingly called “Dadaji” by the younger generation) was born in 1956 in the small village of Akhaj in the Mehsana district of Gujarat. However, he spent his childhood in another village named Ambasan, also located in the Mehsana district.

In the early part of his life, he was a highly successful lawyer. Later, he devoted his life to realizing the supreme spiritual truth and bringing this divine knowledge forward for the welfare of humanity. Today, this supreme knowledge serves as a guiding light for true seekers to realize their ultimate destiny. It is a blessing of the highest divinity that the present time is witnessing the rise of this supreme spiritual knowledge, guiding souls on Earth to return to their original source.

Despite being raised in a very poor family and facing challenging circumstances, Bapuji had a deep desire to transform this sorrowful and suffering world into a better place. At the young age of six, he questioned God repeatedly, asking why God remained silent about the suffering of humanity. This intense longing to end human suffering eventually led him to attain the highest level of spirituality later in life.

Even as a child, Bapuji would spend hours alone in the fields, often neglecting his own comfort. Due to poverty, he would walk barefoot without shoes or sandals, frequently getting pricked by thorns. Many times, he would stay late in the fields and, on his way back home, encounter subtle world entities. These experiences sparked his interest in communicating with subtle world souls.

Bapuji was courageous from a young age, which helped him overcome many obstacles. Alongside his studies in chartered accountancy (CA), he gave tuition classes to support himself financially. Later, he completed his Bachelor of Law (LLB) degree and became a well-known lawyer in Ahmedabad.

In 1997, he established a spiritual institution called “Vishwa Parivartak Ishwariya Vidhyalay” in Chenpur, Ahmedabad, with the mission of transforming this mortal world, filled with suffering and disorder, into an eternal divine world of immortality. Smt. Sushma Tandon, lovingly known as “Maa,” worked alongside Bapuji in this grand divine mission.

To accomplish this mission, Bapuji worked tirelessly, dedicating all his resources to this divine purpose. During that time, he would deliver continuous spiritual discourses for up to 18 hours without rest. In these discourses, he explained the highest dimensions of divine knowledge, which he realized through deep meditation and divine vision in a state of superconsciousness. This knowledge goes beyond the imagination of the ordinary human mind.

Bapuji’s teachings cover a vast range of topics, including the types of celestial creators across different dimensions, the creation of our solar system, galaxy, and universe, and most importantly, the transcendental knowledge of the multiverse and realities beyond it. His knowledge is supremely profound and is intended for highly evolved seekers, referred to as “behad souls.” According to Bapuji, these “behad souls” will play a key role in transforming this mortal world into an eternal divine realm.

At present, Bapuji remains deeply engaged in intense meditation and *samadhi* for long hours. He does not meet anyone, as he is continuously immersed in his transcendental mission in a superconscious state.

The Charity of Knowledge is the Greatest Charity

(share as much as possible)

— by Bapuji Dashrathbhai Patel

This book, *Mantra Siddhi Science*, is an offering from the depths of spiritual experience and divine wisdom. It has been compiled from the sacred teachings of Bapuji Dashrathbhai Patel, the founder of *Vishwa Parivartak Ishwariya Vidhyalay*, Ahmedabad, whose lifelong mission has been to transform this world into a realm of infinite peace and divine light.

The word “*mantra*” comes from two Sanskrit roots: “*manas*” (mind) and “*trana*” (liberation). A *mantra*, therefore, is not merely a word or a sound — it is a living vibration, a divine energy that has the power to liberate the mind from suffering and elevate the soul to its highest state. *Mantra Siddhi* — the realisation of this living power — awakens the conscious force that lies dormant within each sacred syllable, transforming the practitioner from within.

In these pages, the reader will journey from the cosmic origin of *mantras* — rooted in the very act of divine creation — to the practical science of *Param Shanti*, the supreme mantra of this age. The teachings illuminate the science of repetition, the awakening of the chakras, the historical examples of great souls who attained *Mantra Siddhi*, and the precise structured practice through which any sincere seeker may walk the path.

This book is intended for every sincere seeker — whether a beginner on the spiritual path or an advanced practitioner.

The only requirement is an open heart and a genuine desire for inner peace. No prior knowledge of Sanskrit, scripture, or meditation is needed; the science of the mantra is universal and accessible to all.

May this humble work serve as a guiding light on your journey toward *Param Shanti* — supreme, unlimited, and infinite peace. May it inspire you to chant with purity, meditate with devotion, and ultimately *become* the very peace you seek.

Chapter I

Definition of Mantra Siddhi

Mantra Siddhi is the awakening of the conscious power hidden within the *mantra* itself. It is not an external blessing granted by a deity or *guru* — it is an internal activation. Through dedicated repetition and purity of intent, the practitioner unlocks the living vibration that has always resided within each sacred syllable.

♦ **Insight:** “The *mantra* is not merely a word — it is a living vibration, a conscious energy waiting to be awakened through sincerity, repetition, and devotion.”

— *Bapuji Insight*

A *mantra* is not simply sound or syllable. It is a subtle divine energy (*Divya Shakti*) — a vibration woven into the fabric of consciousness and the subtle cosmos. Every true *mantra* is a specific sound-frequency that directly influences both the practitioner’s consciousness and the invisible world of energy that surrounds them.

When a *mantra* achieves *Siddhi*, it transforms the practitioner at every level — physical (*Sthool Sharir*), subtle (*Sukshma Sharir*), and causal (*Karan Sharir*). The vibration gradually permeates the aura, fills the home, and ultimately expands outward to influence the entire surrounding world.

What Happens During Mantra Siddhi?

Level	Body (<i>Sharir</i>)	Effect
Physical	<i>Sthool Sharir</i>	Inner cleansing; a feeling of deep

Level	Body (Sharir)	Effect
		calm.
Subtle	<i>Sukshma Sharir</i>	Purification of energy channels (<i>Nadis</i>); the aura strengthens.
Causal	<i>Karan Sharir</i>	Deep karmic cleansing; root suffering dissolves.

Chapter II

The Cosmic Origin of *Mantra*

To understand why *mantras* carry such extraordinary power, one must trace their origin not to human invention but to the very act of cosmic creation. The universe was not born in silence — it was born in vibration.

How Creation Began

Before time, before space, before matter — there existed only *Shiva Nirakar*: the formless, absolute, supreme consciousness (*Param Brahma Parameshwar*) residing in *Paramdham*. From this infinite silence, creation unfolded in a divine sequence:

Nirakar Shiva first manifested *Aakaari Shiva* — the first form.

Aakaari Shiva brought forth *Shakti* — divine creative power.

Shiva and *Shakti* together gave rise to *Vishnu* — the sustainer.

From *Vishnu's* navel (the seat of creative power) emerged *Brahma* — the creator of worlds.

At the moment of this supreme creative act, the formless *Param Brahma* experienced a profound state of divine bliss (*Paramanand*). That bliss produced vibrations — and from those vibrations arose a music of extraordinary beauty. That music, that first cosmic sound, is *OM* (ॐ).

It radiated in all directions and permeated the entire universe. This is why *OM* (ॐ) is called the *Pranava Mantra* — the primal sound of existence, the very signature of creation.

♦ **Insight:** “At the moment of creation, the first vibration to arise from infinite bliss was *OM* (ॐ) — the cosmic sound that still resonates through every atom of the universe.”

— *Bapuji Insight*

The Birth of All *Mantras*

The creative process did not stop there. *Brahma* created seven *Param Purush* (primordial beings), who created further beings, and so the chain of divine creation continued — giving rise to the vast hierarchy of deities (*devas* and *devis*). With every act of divine creation, a unique sound-signature was released into the atmosphere.

Each deity came into existence with its own specific energy-frequency (Divine Frequency). The sound that carries and expresses that frequency is the deity’s *mantra*.

<i>Mantra</i>	Deity & Energy Connected
<i>OM Namah Shivaya</i>	<i>Shiva</i> — liberation, pure consciousness, and dissolution.
<i>OM Namo Bhagavate Vasudevaya</i>	<i>Vishnu</i> — preservation, divine order, and grace.
<i>OM Aim Hreem Kleem Chamundaye Viche</i>	<i>Devi Chamunda</i> — destruction of ignorance and negative forces.
<i>Gayatri Mantra</i>	<i>Gayatri Devi</i> — union of <i>Saraswati</i> , <i>Lakshmi</i> , and <i>Parvati</i> energies.

When a practitioner chants a *mantra* with sincerity and repetition, the sound-frequency of the *mantra* aligns with the cosmic frequency of the corresponding deity, and that divine energy flows into the practitioner's field.

Chapter III

OM — The Primal Sound of the Universe

Of all *mantras*, *OM* (ॐ) holds the highest significance in this *Bramhand*. It is not merely a religious symbol — it is the seed-sound (*Beej Mantra*) of our entire solar system (*Bramhand*). Understanding *OM* (ॐ) scientifically transforms how one approaches all of spiritual practice.

OM (ॐ) — The Three Letters, The Three Gods

OM is composed of three sacred sounds/vibrations: **A + U + M**. These three syllables each correspond directly to one aspect of the divine Trinity:

Syllable	Deity	Cosmic Function
A (अ)	<i>Brahma</i>	Creation — the arising of all things.
U (उ)	<i>Vishnu</i>	Preservation — the sustaining of all things.
M (म)	<i>Mahesh (Shiva)</i>	Dissolution — the return of all things to source.

When the formless God created these three divine beings, the joy arising in that supreme creative moment expressed

itself as the sound *OM* (ॐ). The universe rang with this vibration at its birth.

The Cosmic Vibration

Ancient spiritual tradition reveals that the Sun emits a continuous cosmic vibration that resonates with the primal sound of *OM* (ॐ). The Sun is the navel (*Nabhi*) of our solar system, just as the navel *chakra* is the centre of the human body.

♦ **Insight:** “The Sun, as the cosmic navel of our solar system, emits the eternal vibration of *OM* (ॐ). When we chant *OM* (ॐ), our inner frequency aligns with the very rhythm of creation itself.”

— *Bapuji Insight*

OM (ॐ) and the Awakening of the Chakras

The ancient teaching states: “What exists in the universe (*Bramhand*) also exists in the individual body (*Pind*).” *OM* chanting activates a precise sequence of awakening:

Stage	What Happens
1. <i>Nabhi Chakra</i> activates	Solar energy (<i>Agni Tattva</i> / Fire Element) flows into the body from the cosmic navel (the Sun).
2. All chakras begin to open	The solar power spreads upward through the energy system, activating each centre.
3. 8th Chakra — <i>Aagya</i>	The soul-centre awakens. Direct experience: ‘I am

Stage	What Happens
	not this body — I am the Soul (<i>Atma</i>).’
4. 9th Chakra — <i>Sahasrar</i>	The crown opens. Connection established with infinite cosmos, galaxies, and the supreme abode.

When the *Sahasrar* (crown *chakra*) opens, the practitioner is no longer limited to the energy of one solar system. Connection is made with the *Mahasurya* (Great Central Sun), with entire galaxies, with the multi-dimensional universe. The soul recognises its true infinite nature.

Chapter IV

The Science of Repetition

Repetition in *mantra* practice is not superstition — it is the direct application of vibrational physics. Just as a tuning fork causes another fork of identical frequency to resonate, sustained *mantra* chanting creates a permanent resonant pattern in the practitioner’s entire energy field.

Ancient spiritual teachings describe this mechanism precisely. The *Upanishadic* tradition reveals that chanting a *mantra* a specific number of times awakens its conscious vibrations. According to traditional teachings: 1,00,000 repetitions produce *Mantra Siddhi* (awakening to the energy of the sounds of the *Mantra*); 10,00,000 repetitions produce Complete *Siddhi*.

The Four Stages of *Siddhi*

Stage	Description
Stage 1 — Vibration Created	Each utterance creates a unique vibrational signature in the subtle body and surrounding aura.
Stage 2 — Pattern Deepens	Through hundreds of thousands of repetitions, this vibrational pattern is deeply imprinted in the subtle body.
Stage 3 — Alignment Achieved	Body, mind, and vital energy (<i>Prana</i>)

Stage	Description
	progressively align with the mantra's frequency.
Stage 4 — <i>Siddhi</i> Manifests	Complete synchronisation is reached. The <i>mantra</i> resonates continuously from within, even without conscious effort.

♦ **Insight: “Repetition is the key that turns a word into a living reality within the practitioner.”**

— *Bapuji Insight*

Thought as Karma — You Become What You Think

There is a profound spiritual law underlying all *mantra* practice: your thoughts are your karma. What you repeatedly and sincerely think, you become. The practitioner who holds the unshaken thought ‘I am *Param Shanti* — I am Supreme Peace,’ and chants without distraction, is progressively imprinting that reality into every layer of their being.

· ★ ·

Chapter V

The *Param Shanti* Mantra

***Param Shanti* — The True Nature of the Soul**

Param Shanti means Supreme Peace. It is the original, true nature of the soul itself. The soul's fundamental pure state is *Param Shanti*. The suffering, agitation, and negativity we experience are not the soul's reality — they are the accumulated weight of karmic entanglement in the material world.

The soul is, at its deepest level, *Sat-Chit-Anand* — eternal truth, pure consciousness, and supreme bliss. *Param Shanti* is the experience of that soul-nature, the return to original purity.

♦ **Insight:** “*Param Shanti* is not something you achieve — it is what you already are, beneath all the layers of accumulated karma and confusion.”

— *Bapuji Insight*

Why *Param Shanti* — Not Simply OM (ॐ) *Shanti*?

‘OM (ॐ) *Shanti*’ is traditionally chanted in reference to *Brahma*, *Vishnu*, and *Shankar* — the three prime deities of our solar system (*Bramhand*). ‘*Param Shanti*’ reaches beyond this. It speaks directly to the soul's own infinite nature — not a prayer to an external being, but the soul recognising and affirming its own deepest reality.

How the Vibration Spreads

When *Param Shanti* is chanted slowly and with awareness, the vibration first arises in the subtle body. As practice

continues, it fills the aura around the physical body. With thousands of repetitions, it fills the room and then the entire home. With a *lakh* (1,00,000) repetitions, the home becomes permanently charged with the energy of supreme peace.

Three Methods of Practice

Method	How to Practice	Best Used When
<i>Vachik</i> (Spoken)	Chant ' <i>Param Shanti</i> ' aloud clearly, 50-100 times. Feel each syllable vibrate in the chest and throat.	Mind is restless; beginning sessions.
<i>Mansik</i> (Mental)	Chant silently in the mind. Can be practised anywhere, at any time, during any activity.	Deepening practice; building <i>Siddhi</i> , feeling the state of supreme peace within.
<i>Atma-Swaroop Jaap</i>	Sit quietly. Recognise: 'I am not this body — I am the Soul.' Then affirm: 'I am <i>Param Shanti</i> .'	Deep meditation; experienced practitioners. The self becomes <i>Param Shanti</i> . This is the highest form.

Chapter VI

Three Levels of *Param Shanti*

As the practitioner's capacity grows and the intention expands, the *mantra* practice naturally evolves through three progressive levels. Each level extends the sphere of the *mantra*'s influence — from the personal aura outward to the entire world.

Level 1 — *Param Shanti* (Supreme Peace)

Attribute	Detail
Meaning	Supreme Peace — the soul's own nature.
Target Repetitions	1,00,000 (One Lakh).
Sphere of Influence	Your personal aura and home.
Primary Effect	Fills the personal aura and living space with peace; reduces personal suffering.

Level 2 — *Behad ki Param Shanti* (Boundless Supreme Peace)

Attribute	Detail
Meaning	Boundless Supreme Peace — peace without any limit or boundary.

Attribute	Detail
Target Repetitions	1,00,000 (One Lakh).
Sphere of Influence	Society, city, and nation.
Primary Effect	Breaks the boundary of personal aura; vibration expands outward to the community and nation.

Level 3 — *Behad ke Behad ki Param Maha Shanti*

(Supreme Great Peace Beyond All Bounds — Infinite in All Directions)

Attribute	Detail
Meaning	Supreme Great Peace — infinite in every direction, dimension, and realm of creation.
Repetitions	Continuous — no fixed limit.
Sphere of Influence	The entire creation.
Primary Effect	Vibration radiates at the highest speed across the entire planet; maximum spiritual transformation.

The Complete Vision

Mantra	Sphere of Reach
<i>Param Shanti</i>	Your aura and home — personal peace.

<i>Behad ke Behad ki Param Maha Shanti</i>	The entire world — universal peace.

Chapter VII

Purity & Concentration

True *Mantra Siddhi* requires two essential inner qualities working in concert. Without these, repetition remains mechanical and the deeper awakening does not occur — regardless of how many times the *mantra* is chanted.

1. Purity (*Pavitrata*)

Complete inner and outer purity allows the *mantra's* vibration to travel without obstruction:

Physical Purity: Cleanliness, a *sattvic* diet, and regular practice in a clean space.

Mental Purity: Freedom from hatred, greed, and lust.

Karmic Purity: Honest living and righteous action in daily life.

2. Concentration (*Ekagrata*)

One-pointed focus during chanting amplifies the *mantra's* impact exponentially. When the mind wanders, the vibrational thread is weakened. When total concentration is achieved, even a single repetition can carry the power of thousands.

◆ **Insight:** “Chant with such focus that the boundary between the chanter and the chanted dissolves. This is the moment of *Siddhi*.”

— *Bapuji Insight*

Chapter VIII

Historical Examples of *Mantra Siddhi*

Ancient texts provide powerful documented examples of individuals who achieved *Mantra Siddhi* and underwent profound, life-altering transformation.

Vishwamitra — From Warrior to Brahmarishi

Vishwamitra was born a powerful warrior king — a *Kshatriya* by lineage and nature. Through extraordinary dedication and the complete *Siddhi* of the *Gayatri Mantra*, he transformed his entire being and became *Brahmarishi Vishwamitra* — one of the most revered sages in all of *Vedic* tradition.

Vishwamitra undertook intense austerity (*tapas*) — the worship of three great divine mothers: *Maa Saraswati*, *Maa Lakshmi*, and *Maa Parvati*. He absorbed their combined energies and manifested the integrated form of *Gayatri Devi* — a unified power representing knowledge, prosperity, and strength.

Ravana — The Paradox of Siddhi

Despite the complexities of his nature and the controversies surrounding his story, *Ravana* achieved such mastery in his chanting of *OM (ॐ) Namah Shivaya* that Lord *Shiva* himself granted him extraordinary divine boons. *Mantra Siddhi* is activated by the quality and quantity of practice — its power is universal and impartial.

♦ **Insight: “*Mantra Siddhi* does not require perfect circumstances. It requires perfect commitment.”**

— *Bapuji Insight*

The Special Significance of This Age

In this present age, the cosmos has entered a new phase of its eternal cycle. The *devas*, *devis*, and the *Tridev* (*Brahma*, *Vishnu*, *Mahesh*) continue to bless creation as they eternally do, and every traditional *mantra* retains its sacred place in the spiritual journey of humanity. At the same time, the spiritual rhythms of this present era invite a direct and inward approach to divine awakening — one that complements the eternal traditions and speaks to the soul’s own infinite nature.

This is the reason why, in this age, the teaching of *Param Shanti* and *Behad ka Param Gyan* (Unlimited Supreme Knowledge) carries special significance: it is not a petition to an external deity, but the direct awakening of the soul to its own infinite nature.

Chapter IX

Mental vs Spoken Chanting

One of the most practically important insights in this teaching concerns the dramatic difference in power between spoken (*Vachik*) and mental (*Mansik*) chanting.

Type	Sanskrit Term	Relative Power
Loud Chanting	<i>Vachik Jaap</i>	1× — Best for beginners; physical vibration of sound helps anchor attention when the mind is restless.
Whispered	<i>Upanshu Jaap</i>	10× — Transitioning to deeper practice; the vibration becomes more internal.
Mental / Silent	<i>Mansik Jaap</i>	1,000× — Most powerful. Deep meditation, sustained concentration. The <i>mantra</i> becomes self-arising and continuous.

The natural progression of practice moves from spoken to silent. After 30 to 60 minutes of steady chanting, the practice naturally becomes subtle — the voice fades and the *mantra* continues in the mind on its own.

♦ **Insight: “The spoken word reaches the ear.
The thought reaches the universe.”**

— *Bapuji Insight*

— *Bapuji Insight*

The Ultimate Goal of *Mantra Siddhi*

Through faithful, pure, and persistent practice, the *Param Shanti* mantra guides the practitioner from individual experience into universal consciousness:

First — to *Vaikunth* (the realm of *Vishnu*), where peace and harmony prevail.

Further — to *Shivpuri* (the realm of Lord *Shiva*), where dissolution into supreme stillness begins.

Beyond — to *Paramdham* itself — where only *Param Shanti* exists, infinite, silent, free.

♦ **Insight: “Chant with purity. Think with devotion. Become the peace. This is *Mantra Siddhi*.”**
