About Bapuji

Bapuji (full name: Bapuji Dashrathbhai Patel, also lovingly called “Dadaji” by the younger generation) was born in 1956 in the small village of Akhaj in the Mehsana district of Gujarat. However, he spent his childhood in another village named Ambasan, also located in the Mehsana district.

In the early part of his life, he was a highly successful lawyer. Later, he devoted his life to realising the supreme spiritual truth and bringing this divine knowledge forward for the welfare of humanity. Today, this supreme knowledge serves as a guiding light for true seekers to realise their ultimate destiny.

Despite being raised in a very poor family and facing challenging circumstances, Bapuji had a deep desire to transform this sorrowful and suffering world into a better place. At the young age of six, he questioned God repeatedly, asking why God remained silent about the suffering of humanity. This intense longing to end human suffering eventually led him to attain the highest level of spirituality later in life.

In 1997, he established a spiritual institution called “Vishwa Parivartak Ishwariya Vidhyalay” in Chenpur, Ahmedabad, with the mission of transforming this mortal world, filled with suffering and disorder, into an eternal divine world of immortality. Smt. Sushma Tandon, lovingly known as “Maa,” worked alongside Bapuji in this grand divine mission.

Bapuji’s teachings cover a vast range of topics, including the types of celestial creators across different dimensions, the creation of our solar system, galaxy, and universe, and most importantly, the transcendental knowledge of the multiverse and realities beyond it. His knowledge is supremely profound and is intended for highly evolved seekers, referred to as “*behad* souls.” According to Bapuji,

these *behad* souls will play a key role in transforming this mortal world into an eternal divine realm.

At present, Bapuji remains deeply engaged in intense meditation and *samadhi* for long hours. He does not meet anyone, as he is continuously immersed in his transcendental mission in a superconscious state.

(Sharing Knowledge is the highest charity — share to the maximum extent with all.)

· ★ ·

The journey of the soul is the deepest mystery of existence. Where does the soul come from? Where does it go after leaving the body? What determines its final destination? These are questions that have echoed through every civilisation and every age.

In this book, Bapuji Dashrathbhai Patel reveals the complete picture of the soul’s journey — from its original creation as a celestial being, through its descent into the physical world, and ultimately its path of return. He explains the role of soul power, knowledge, and desire in determining how far a soul can travel across dimensions, galaxies, and universes.

Bapuji also addresses the profound question of the soul’s last journey — when and how all souls reach their final destination. His teachings clarify the difference between *jeevan mukti* (liberation) and *mukti/moksha* (dissolution), and reveal the role of the Almighty Authority in the ultimate transformation of the multiverse.

This book is offered with humility to all sincere seekers. May it serve as a lamp on the path of understanding.

Souls exist in many categories, such as human souls, animal souls, deity souls, and highly evolved divine souls. Each category of soul experiences a different final journey depending upon its karmas, knowledge, consciousness level, and spiritual effort.

When a soul regularly practices being in a peaceful, divineful state with awakened divine intelligence, it begins

to grasp the secrets of the beginning, middle, and end of the infinite cosmic drama. When worldly situations spiral into chaos and reach extreme imbalance, a transformative change becomes inevitable. As the ancient saying goes, “*Ati hota hai to ant hota hai*” — when extremity occurs, an end must follow.

Are we not witnessing a world tipping toward that extremity today?

Chapter I

The Soul and Its Power

When a human being on this Earth leaves the body, the soul does not simply vanish. If that soul possesses sufficient soul power (*kala*), it can rise upwards through the seven dimensions — from *Bhulok* to *Bhuvarelok*, *Swarlok*, *Maharelok*, *Janlok*, *Taplok*, and *Satyarelok*. Beyond these lie *Brahmapuri*, *Vishnupuri*, *Shivpuri*, and finally *Paramdham* — the Supreme Abode of this *brahmand*.

Once the soul reaches the incorporeal stage (*Nirakaari*), it can travel across the infinite *brahmand* (solar systems) within our galaxy. It can take birth on any Earth, become a human being, or even reside in the *Paramdham* of another *brahmand*.

The Role of Soul Power

The soul's ability to travel depends entirely on its power, measured in *kala* (degrees of spiritual energy). A soul with less than one *kala* cannot travel to another *brahmand* at all. A soul with two *kala* also lacks the power for such a journey. A soul needs a minimum of four to five *kala* to travel within our galaxy and take birth in another *brahmand*. To journey beyond our galaxy to another galaxy, the soul requires at least twelve to fifteen *kala* of power.

If a very powerful soul of twenty to twenty-five *kala* has taken human birth in our *brahmand*, that soul can leave our galaxy, travel to another universe entirely, enter its galaxies and *brahmands*, and take birth there. This is what modern science calls the concept of a parallel universe.

Soul Power, Knowledge and Intent

Three things determine the soul's journey: soul power, knowledge, and intent. The soul must have the power to travel. It must have the knowledge of where it wishes to go. And it must have the intent to go there.

If any one of these is missing, the soul will remain where it is. Without strong intent or wish, even a powerful soul will stay in the cycle of birth and death on this Earth — sometimes rising to the heavenly realms, sometimes descending to the lower worlds — until the great dissolution comes.

♦ **Bapuji Insight: “Power is the foundation. On the basis of power comes knowledge. On the basis of knowledge comes desire. And through desire, the soul travels wherever it wishes.”**

Chapter II

Dimensions of the Soul's Ascent

Every soul has a home, and that home is different for every soul. The creator of this *brahmand* is *Shiv*, and a soul within this *brahmand* can ascend as high as the Supreme Abode, *Paramdham*.

Shiv created the world through *Brahma*. A soul may be a direct creation of *Brahma* or an indirect creation, such as through the *Sapta Rishis* (Seven Sages). Direct creations of *Brahma* can reach up to *Brahma* through their efforts, while indirect creations can reach as high as the heavenly realm.

The Home Is Where the Desire Takes You

If a soul wishes to go to heaven, then *Swarglok* becomes its home. If a soul wishes to go beyond heaven, it may travel to the fourth or fifth dimension. If a soul desires to reach *Vaikunth*, it will travel to *Vishnupuri*, and *Vaikunth* becomes its destination.

If a soul seeks peace, then *Shivpuri* becomes its home. If a soul desires *Paramdham*, then that becomes its final destination. Those with higher knowledge may aspire to reach *Mahashiv* — the centre of the galaxy, at *Maha Paramdham*. And souls wishing to go beyond the galaxy can reach *Param Mahashiv* at *Param Maha Paramdham*, the level of the universe.

The Origin Determines the Limit

A soul can reach back to the level of its creator. If a soul originated from within this *brahmand*, it can understand the knowledge of *Shivpuri* and the Supreme Abode of this *brahmand* — but not beyond.

If a soul came from the galaxy level, it will understand the knowledge of *Mahashiv* and can return to *Maha Paramdham*. If it came from the universe level, it can return to the universe. And if its home is in the great great

universe, it requires the knowledge of that level to return there.

Chapter III

Travel Across Galaxies and Universes

Souls with higher *kala* can travel far beyond our *brahmand*. A soul of twenty to twenty-five *kala* can leave our universe and enter another universe entirely, taking birth in the galaxies and *brahmands* within that universe.

If the soul has thirty to forty *kala* of power, it can travel as far as the great great universe and take birth within its galaxies. A soul of fifty to sixty *kala* can roam across the entire multiverse.

Aliens and Souls from Distant Universes

Many groups of powerful souls travel across universes in their subtle form. They move in celestial vehicles — what people today call UFOs. Some of these souls descend to Earth and take human birth. Others may fall to the lower realms. But when they receive knowledge, they ascend again to the higher dimensions.

According to Bapuji, aliens are souls coming from very far universes. Among them are the 33 crore (deity) *devi devta* of the *Aadi Anaadi* (primordial) religion, who once attended a grand gathering in the great-great (G2) universe and eventually came to Earth, becoming human beings.

In search of these thirty-three crore *devi devta*, their ancestors — nine lakh souls — came. Then the creators of those nine lakh, sixteen thousand souls, came. Then in search of those sixteen thousand, one hundred and eight souls came, along with the Almighty Authority himself — the controller of the multiverse.

The Bodies of Supreme Elements

The UFOs of these beings are made of supreme elements, *param tatva*. It takes only one second for them to move from one galaxy to another. Their technology is based on the

ether element, which holds immense power, as everything in creation is born from ether.

According to Bapuji's spiritual vision, certain scientists on Earth who had begun discovering deeper truths of ether-based energy were prevented from continuing their work, and this is why mainstream science has not yet reached the level of ether-based technology. He teaches that there is no shortage of energy in the atmosphere — ether is full of energy. In the coming transformation, all of this will change.

Chapter IV

The Return Journey

The return journey of the soul is the path from this physical world back to its original home. But what determines whether a soul can make this journey?

The Need for Knowledge

A soul that wishes to go back to *Paramdham* must first have the knowledge of the path. But in human form, most souls are so entangled in illusion and in the five gross elements that they are unaware of their real home. They do not know how the incorporeal *Shiv* exists, or how to reach Him.

After death, many souls remain attached to their homes, their families, their possessions. A politician may remain attached to the seat of power. As the scriptures say: a soul that thinks of bodily relations, money, or material possessions at the end of life cannot attain a higher state.

Ascending Through the Dimensions

After leaving the gross body, the soul retains its astral body of three elements — ether, air, and fire. In the subtle world, good souls of sages and saints give knowledge to other souls. With this knowledge, the soul can travel upward.

The path goes from *Bhulok* to *Bhuvarlok*, then to *Swarglok*, then to the fourth and fifth dimensions of *Maharlok* and *Janlok*, then *Taplok*, and on to *Brahmapuri*. If the soul gains enough power, it can proceed further to *Vishnupuri*.

Why Souls Return to Earth

When a soul reaches the sixth or seventh dimension — *Brahmapuri* — and looks down upon the Earth, it may feel attachment towards its creation, its family, its former life. The gravity of the Sun works up to *Brahmapuri* and somehow creates a feeling of attachment in souls. This *moh*

(attachment) pulls the soul back down to take birth on Earth again.

Even souls that reach *Paramdham* in their incorporeal form sometimes hesitate to merge into the Supreme. They think: “If I merge, my individual existence will end.” So they descend again to the causal world, decide to take one more human birth to do good work, take birth, forget everything, and fall back into the cycle of birth and death.

♦ **Bapuji Insight: “The soul’s journey depends on its thinking. A human soul that truly desires liberation and does not wish to take birth again — that soul, after death, will slowly rise through the subtle world, cross the causal world, and reach Paramdham.”**

Chapter V

The Last Journey of Every Soul

The last journey of the soul — its ultimate and final journey — is different for every category of soul. The final destination of a human soul, an animal soul, and a celestial soul are all different.

The Human Soul

If a human soul desires *moksha* (liberation), it must earn it through good actions and knowledge. After death, it slowly crosses the many layers of the subtle world, then the many layers of the causal world, and finally reaches *Paramdham*, where it merges into the power of *Shiv Paramatma*.

But this depends entirely on the soul's thinking. Most human souls do not truly seek liberation. They perform actions like demons and then claim they want heaven. When they die, they go not to heaven but to lower realms, and may be reborn as animals.

The Animal and Insect Souls

Animal and insect souls do not have free will. They cannot decide their own journey. They have no knowledge. This is why the cycle of eighty-four lakh births is called *bhav sagar* — the ocean of emotions. Only in human birth does a soul receive the intelligence to seek its own liberation.

The Celestial Souls

Even the *devta* (celestial beings) have a limited lifespan. The age of the *devta* ends within one day of *Brahma*. When the age of the *devta* soul ends, it too is finished.

The last journey of every soul is ultimately determined by its creator. *Vishnu* determines the end of the *devta* souls. *Shiv* determines the end of all souls in this *brahmand*. And *Mahashiv* determines the end of all *Shivs* across the galaxy.

The Soul Cannot End Itself

No soul, no matter how much it desires, can end its own existence. Only its creator can do that. The soul is eternal, deathless, and indestructible. Only the creator who brought it into being has the authority to bring its journey to a close. This is why every human life is supremely precious and protected — the body is the only vehicle through which the soul can gain knowledge, undertake spiritual effort, and progress on its return journey.

Chapter VI

Time, Creation and the End of All Journeys

The Cycle of Time

The journey of all souls is bound by time. When time ends, the journey ends. *Shiv* enters the Sun and produces *Kaal Agni* — the fire of time. In that fire, all souls — whether in the gross world, the subtle world, or the causal world — are dissolved in a single moment. Their existence is finished.

At the level of the galaxy, *Mahashiv* performs the *Mahakaal Pralaya* (great dissolution), absorbing all the infinite *brahmands* and their *Shivs* into himself.

The Descent from Creation to Dissolution

In the beginning, *Brahma* created celestial beings — *farishta* (angels) — in the causal world, whose bodies were made of supreme elements and filled with supreme light. These angels then created the *devta* in the subtle world, made of three elements: ether, air, and fire.

Gradually, these *devta* descended from the subtle world to the gross world and became human beings. As their soul power diminished through sinful actions, they were reborn as animals, insects, and worms. The same soul that was once an angel is now, after countless ages, a tiny germ.

One day of *Brahma* equals eight billion six hundred and forty million years on Earth. The age of *Brahma* is one hundred such years. These numbers are beyond ordinary calculation.

The Lifespan of Shiv

Shiv's lifespan is equal to the full one hundred years of *Brahma*. But even *Shiv's* existence is not independent. When his time comes, *Mahashiv* produces the *Mahakaal Agni* and absorbs all the infinite *Shivs* and their *brahmands* into his own being.

In every single moment of *Mahashiv's* time, infinite *brahmands* are created and dissolved. What we consider an entire age of creation is merely a blink in the time of *Mahashiv*.

Chapter VII

Liberation and the New World

Who Is the Almighty Authority?

One hundred and eight supreme souls are in search of the Almighty Authority — the creator of billions of multiple universes who has himself descended on Earth during this period of transformation.

The Almighty Authority is neither *Shiv*, nor *Mahashiv*, nor *Param Mahashiv*. He is not the controller of any single galaxy or universe. He is the controller of millions and billions of multiple universes, and He has come for the transformation of all of them.

Almighty Authority, Himself descends to initiate world transformation. When souls forget their true identity — *Who am I? From where have I come?* — a deep inner thirst for supreme truth arises. This is the period of *Dharma Glani*, the decline of righteousness, where the inner essence of spirituality is gradually forgotten and ritualism overshadows the true experience of peace and purity. It is during such times that God descends into the body of an ordinary human to reveal the supreme knowledge. This divine knowledge helps souls conquer vices, cultivate divine virtues, and transform from human to divine once again.

The Difference Between Moksha, Mukti and Jeevan Mukti

The spiritual traditions of India speak extensively about **Moksha, Mukti, and Jeevan Mukti**, yet their meanings are often misunderstood. In devotional traditions they are treated as the same, but in deeper spiritual knowledge these states represent **different stages of the soul's liberation**. In this discourse, **Bapuji** explains the hidden meaning of liberation, the long cosmic journey of the soul, and the difference between **Moksha, Mukti, and Jeevan Mukti**.

Mukti and Jeevan Mukti

According to Bapuji, all souls will receive either *mukti* (liberation) or *jeevan mukti* (living liberation). Thirty-three crore *devi devta* will receive *jeevan mukti* wherever they are in the great great universe. Out of them, nine lakh will receive *jeevan mukti* to create a new world. The rest will receive *mukti* in a single second. This is the true return journey. The Father of the Infinite has come to give *mukti* and *jeevan mukti* in a second.

Mukti and Moksha: Are They the Same?

In the **Bhakti Marg (Path of Devotion)**, Moksha and Mukti are considered identical. Devotees believe that when a soul becomes free from the cycle of birth and death and merges with God, it attains Moksha or Mukti. However, according to the **Gyan Marg (Path of Knowledge)**, these two states are different. A soul may perform **austerities and spiritual practices for many lifetimes** in order to attain liberation. Many spiritual seekers believe that **merging into Brahm (the divine light)** is Moksha.

But according to deeper knowledge: **Merging into Brahm is actually Mukti**. Mukti means that the soul dissolves completely into **Param Prakash - the Supreme Divine Light**, losing its separate identity. If the soul still retains its individual existence, then it cannot be called Mukti.

But what Bapuji speaks of is different. He speaks of *jeevan mukti* — living liberation. The supreme knowledge says that the soul will become *param param param Paramatma*, the controller of multiple universes.

The Goal of Brahm Gyani Souls

Those who call themselves **Brahmrishis or Brahm Gyanis** focus their meditation on the **formless divine light**. They meditate on **Jyoti Swaroop - the radiant light of the Supreme** and perform austerities for thousands of years with the goal of merging into it.

When the soul merges into this supreme light:

1. Its individuality dissolves
2. Its identity disappears
3. It becomes one with the divine light

This state is called **Mukti**. Bapuji compares it to **a drop of water merging into the ocean**, losing its separate existence.

The Role of Karma

The recording of all *karma* exists within the soul. The causal body, made of the ether element, holds the record of every action. To clear negative *karma* (*vikarma*), the soul needs power. And that power comes from connection with *Paramatma* through meditation.

Today, the Almighty Authority himself has come to change the entire multiverse. Souls in all galaxies and universes across the multiverse will receive *mukti*. Only nine lakh souls will receive *jeevan mukti* to create a new world of one hundred *kala*.

What Determines the Soul's Highest Destination?

According to Bapuji's very early insight:

1. Knowledge of Shiv leads toward Shiv.
2. Knowledge of Mahashiv leads toward Mahashiv.
3. Knowledge of higher dimensions leads toward higher spiritual realms.

The soul's journey is gradual, not instant. The soul evolves through:

1. Awareness, Remembrance, spiritual power, knowledge of higher realities

Ultimately, the highest aim described is realization of the **infinite source of creation**, referred to as the Almighty Authority.

The Role of Knowledge in Spiritual Evolution

Bapuji emphasizes that: Knowledge transforms the soul from:

Jeev → Shiv → Mahashiv → Param Mahashiv → Infinite Consciousness

Spiritual progress is described as expansion of awareness into higher dimensions of existence. Knowledge of the infinite is described as understanding multiple layers of cosmic reality beyond physical perception.

The New World

In a short period of time, the world which is now in the mode of ignorance — *tamo pradhan* — will be transformed into silence and power in a single second. The process of *mukti* and *jeevan mukti* will happen. A new world of the multiverse, the world of one hundred *kala*, will begin.

Ultimate Aim of the Soul

The highest aim of the soul is realization of the infinite source of existence and attainment of supreme peace and supreme knowledge. Knowledge expands consciousness beyond limited identity and connects the soul with higher dimensions of existence. The journey of the soul is described as infinite, evolving through awareness, knowledge, and spiritual realization.

Thus, the last journey depends on:

1. Soul's karmas
2. Soul's desires
3. Soul's level of knowledge
4. Soul's spiritual power
5. Soul's final thoughts at death

The last thought of the soul plays an important role in determining the direction of the soul's journey.

♦ Bapuji Insight: “The return journey is real. Mukti and jeevan mukti are a reality. You will
